

BEDSIDE

Maximize your connection to your guests by adding Inteliity Bedside on in-room tablets to guest rooms at your property.

MODERN GUEST ROOMS

Provide your guests with greater control by giving them direct digital access to your staff, without standing in line or waiting on the phone. Design a unique, interactive menu to give your guests access to all types of different services, including:

- Set room preferences
- Request room service
- Set wake-up calls
- Create housekeeping requests
- Scheduling appointments
- Leaving feedback

CONVENIENT BEDSIDE DASHBOARD

Our Dashboard landing page is home to a modern alarm clock, 150+ international radio stations, a weather forecast for your area, and automated room controls to manipulate elements of the room environment such as lighting, temperature, and drapes.

BENEFITS FOR YOUR STAFF

Inteliity Bedside includes our trademarked ICE Control Panel, a back-end interface that empowers your staff to:

- Edit content in real time
- Track all requests to fulfillment
- Integrate with any POS, PMS, or other management systems
- View real-time business intelligence & metrics
- Easily create an effective guest service strategy

KEY FEATURES

DIGITAL COMPENDIUM

Save thousands of dollars by maintaining digital records of the latest version of your hotel compendium, along with menus, maps, promotions, current newspapers, magazines, e-books, and onsite events through our platform.

DEVICE SECURITY

Our platform ensures that guest information is kept secure. For example, data is able to be automatically reset as soon as the guest checks out.

SUPPORT

Nearly 24/7 technical support from our team of experts to ensure that your services work as planned.
