

WHAT YOU GET WITH WRANGLER

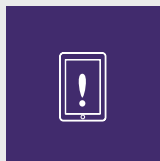

EASY MANAGEMENT

Manage and monitor your Bedside tablets remotely, removing the need to enter guest rooms to deploy upgrades or make changes.

DEVELOPED FOR HOTELS

Wrangler was specifically developed for the in-room hotel use. With so many connected devices on your property than staff, hotel MDM is the best way to easily get your devices up and running, as well as, perform routine maintenance.

REAL-TIME NOTIFICATIONS

Wrangler is designed to notify Intelity when a mobile device is online/offline, the battery is low, or the device has left the designated area. We monitor your devices so that your staff can focus on giving guests the best experience possible.
